LOVERING OF ART UNIT
1712. THESE PAPERS ARE
NOT FOR ENTRY**

Dear Examiner Lovering,

The attached handouts are from a class on emulsion chemistry sponsored by the American Chemical Society. This is in support for the arguments that there are distinct differences between emulsions (as is taught in the prior art reference) and microemulsions (applicant's invention) which would be recognized by one of ordinary skill in the art.

Please feel free to contact me if you have any questions or comments.
